

National Power Corporation Completes ITAR Registration

(CHICAGO, IL) June 30, 2020 – National Power Corporation, a leading custom battery pack producer, is pleased to announce it has completed registration with the U.S. Directorate of Defense Trade Controls (DDTC) for compliance in International Traffic in Arms Regulations (ITAR). ITAR regulates the manufacture, export and transfer of defense-related articles, information and services under the direct oversight of the U.S. Department of State. This registration documents National Power Corporation’s dedication to the regulations controlling the export and import of articles and services related to defense and aerospace.

“ITAR registration is a critical milestone in our efforts to expand our customer base. With our significant technical and manufacturing expertise in the rechargeable battery industry, ITAR registration now positions us to fully support the defense and aerospace markets.”, said Ira Alport, President. “We’ve invested significant time and resources working toward the registration. We’re truly looking forward to supporting future ITAR customers.”
